

COMPLIANCE & SAFETY

Safety & Culture

Arrive Alive: *Distracted Driving*

Distraction while driving is a leading cause of vehicle crashes. **Distractions can be:**

- Texting while driving
- Talking on a cellphone
- Adjusting navigation, audio, & climate-control systems
- Adjusting other vehicle devices (seat, mirrors, arm rests, etc)
- Reaching for or adjusting objects in the vehicle
- Eating & drinking
- Personal grooming

The National Highway Traffic Safety

Administration's data indicates:

- Distracted driving kills about nine people each day in the United States & injures 1,000 more.
- In 2020, 3,142 people were killed & an estimated additional 324,652 people were injured in motor vehicle crashes involving distracted drivers.
- In 2020, 587 non-occupants (pedestrians, pedal cyclists and others) were killed in distraction-related crashes.

HOW TO REACH RISK
